Subject: Bayou Corne Sinkhole Survey, Assumption Parish, LA

Mr. Fife,

I have been working for Florida Gas Pipeline for the past month, more particularly on their pipeline assets near the Bayou Corne sinkhole. I found your email in a report prepared by the U.S. EPA detailing the Aerial Chemical Survey recently performed over the area. Reference was made to ortho-rectified aerial photography of the site. Is this data available, and if so, how can I obtain aerial photography of the sinkhole and vicinity? Florida Gas Pipeline has a 12" pipeline less than 200' from the sinkhole perimeter and recent photography would be a great help for their planning of a potential reroute of the pipeline. All of the pipelines near the sinkhole have been depressurized for some time and the affected companies are making plans to reroute, so any new photography would be helpful. Please do not hesitate to call if you need any additional information. Thanks,

Luke P. Marcel
